[For the book on naval astronomy which is attributed to him is said in reality to be the work of focus the samian but callimachus was aware that he was the discoverer of the lesser bear for in his iambs he speaks of him thus](#)

[And he tis said did first compute the stars](#)

[Which beam in charles s wain and guide the bark](#)

[Of the phoenician sailor o er the sea](#)

[According to others he wrote two books and no more about the solstice and the equinox thinking that everything else was easily to be comprehended according to other statements he is said to have been the first who studied astronomy and who foretold the eclipses and motions of the sun as eudemus relates in his history of the discoveries made in astronomy on which account xenophanes and herodotus praise him greatly and heraclitus and democritus confirm this statement](#)
